WELCOME

Coalbrook is a luxury brassware bathroom brand that sets itself apart with its industrial inspired identity. Specialising in high-end, beautifully crafted fixtures and fittings, Coalbrook combines sleek design with durable materials to create a sophisticated aesthetic to complete the perfect bathroom.

Our industrial inspired identity stemmed from Coalbrookdale in the Midlands, the home of the iconic Ironbridge Gorge and the birthplace of the Industrial Revolution. The mirroring of our identity in our product captures the true spirit of what we offer: solid, reliable and well-engineered brassware.

QUALITY

SUSTAINABILITY

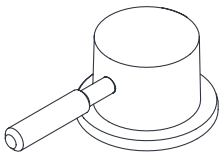

FUNCTION

FOUR RANGES

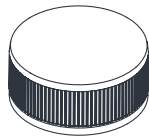

Crafted by experts, these products have been through various stages from concept through to 3D prototype with design always at the forefront. Coalbrook's impressive collection includes four signature ranges - Domo, Decca, Bank, and Zurich.

All ranges have been created to provide something for every bathroom, including deck and wall mounted basin mixers, deck, wall and freestanding bath fillers, showers and a complimentary accessories range.

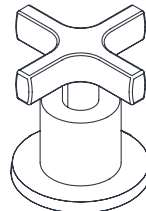

All taps, valves and showers are WRAS approved, BREEAM compliant, further proof that these products have been manufactured to not only look good, but to last.

DECCA

BANK

ZURICH

FOUR FINISHES

Our Chrome finish is a timeless classic, fitting perfectly in almost every bathroom setting. Brushed Nickel offers a subtle golden tint as a difference to Chrome. Gunmetal's dark and sleek tones add the perfect finish and Brushed Brass adds that extra touch of class to any bathroom.

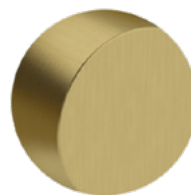

With the exception of Chrome, all surfaces are coated with PVD, ensuring long-lasting durability for daily use. The PVD process is considered to be a more eco-friendly option when compared to traditional plating due to its lower levels of contaminants. The finish is securely bonded to the brassware in PVD coating, ensuring no discolouration or tarnishing occurs.

COALETCH

Personalise your brassware

Introducing Coaletch, our latest cutting-edge etching feature designed to enhance both the aesthetic appeal and functionality of Coalbrook's products. Coaletch allows for intricate designs to be etched directly onto the surface of our brassware, providing a unique and sophisticated or playful touch to any bathroom decor.

HOW IT WORKS

Select Product:

Begin by exploring our diverse range of products available for personalisation.

Choose Design:

Clients can choose from a selection of fonts or icons.

Submit Request:

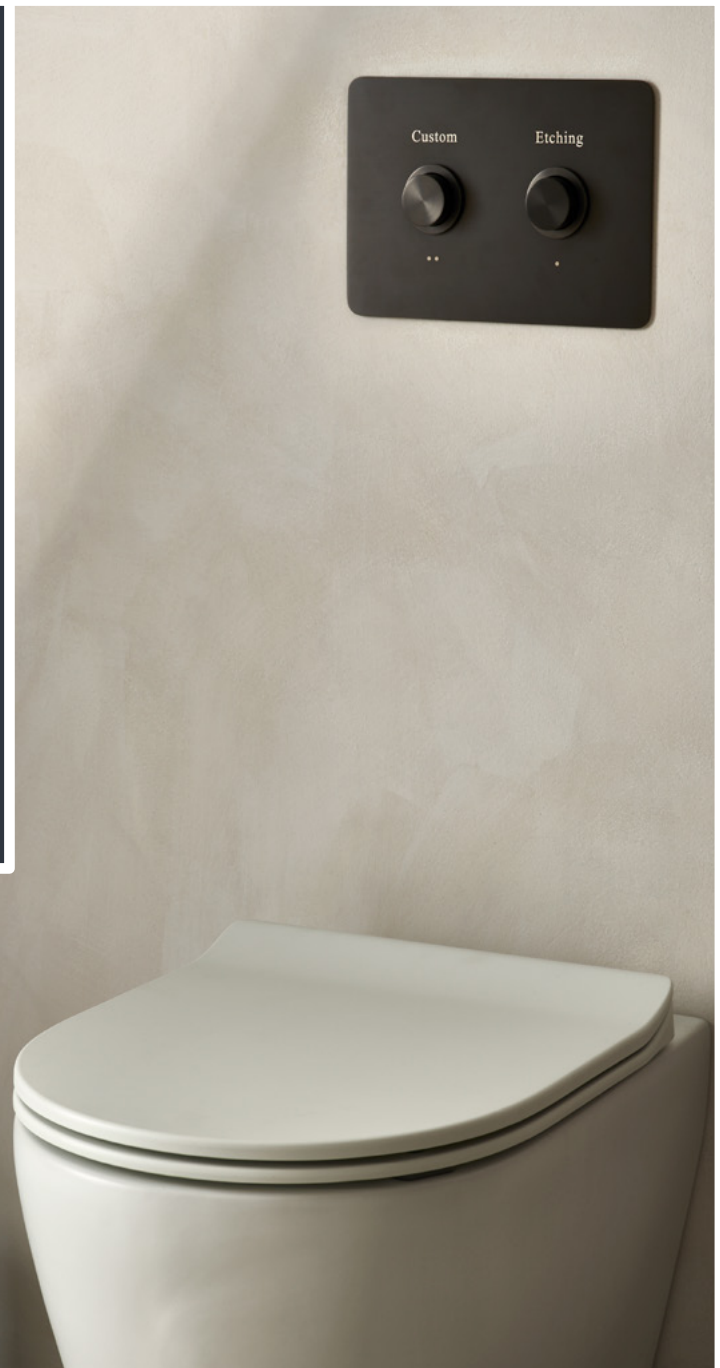

Send your request to info@coalbrookuk.co.uk and our team will provide you with a preview.

Review and Approve:

Preview your design, make any necessary adjustments and approve the design.

Production and Delivery:

Once approved, your personalised item(s) will be etched and sent out for delivery.

Designed to offer a unique way to customise our exquisite range of products. With this new service, you can now transform Coalbrook items into personalised treasures that reflect their individuality or enhance the functionality of your chosen products.

THE MARKET BUILDING

This historic building serves as our flagship showroom for Coalbrook's innovative products and designs, allowing designers, architects and clients to experience the quality and craftsmanship firsthand.

The Market Building is more than just a retail space - it is a symbol of our commitment to authenticity, creativity, and progress. The juxtaposition of traditional industrial architecture with contemporary design elements mirrors our approach to crafting high-quality products that honor our heritage while embracing innovation.

VISITING THE MARKET BUILDING

This space allows us to showcase not only our products but also the story behind them - the history, craftsmanship, and dedication that goes into each piece. Take advantage of this unique experience by inviting your clients down to explore the showroom and interact with our products.

Designed to appear like an industrial landscape, shower displays are mounted onto 'chimneys' and situated beneath chainmail curtains representing smog, whilst the windows feature vibrant red and amber resin, which glow like furnaces.

A solid stone, post-tensioned staircase with rough quarried edges leads down to the basement level, where two large industrial boiler-like structures house working tap displays.

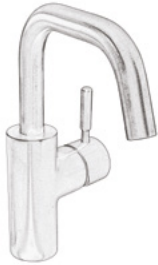

BUYERS GUIDE

Use our buyers guide as a support tool to simplify your options.
You will find a majority of the products in the next few pages
across our four ranges, in all four finishes.

DECK MOUNTED

Deck mounted basin mixers are mounted either directly on the basin or if a countertop or under counter basin is used then they are mounted to the worktop.

1 TAP HOLE (MONO)

Mono basin mixers are typically used with standard basins with 1 tap hole. In the Coalbrook range you have a standard mono basin mixer and a swivel spout mixer that allows you to adjust the spout.

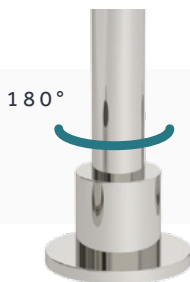

2 TAP HOLE (2TH)

Two hole basin mixers are typically used with under counter basins as they allow the spout and the control to be placed separately for ease of use. A high spout is also available for use with countertop basins.

3 TAP HOLE (3TH)

Three hole basin mixers allow you to control the hot and cold water independently to get the perfect mix. Coalbrook handles and spouts are interchangeable allowing any combination of styles.

FIXED OR SWIVEL?

Fixed or swivel spouts are available across some of our basin and bath mixers. The swivel option allows you to move the spout up to 180°.

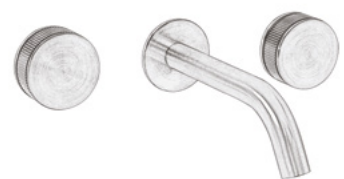

WALL MOUNTED

Wall mounted basin mixers are mounted to the wall to give a streamlined, minimalist look. When choosing a wall mounted basin mixer it is important to check your basin is compatible and that the spout projection is sufficient.

2 TAP HOLE (2TH)

The two hole basin mixer allows you to select the perfect temperature with one lever. The lever is always on the righthand side.

3 TAP HOLE (3TH)

Three hole basin mixers allow you to control the hot and cold water independently to get the perfect mix.

SHOWERING

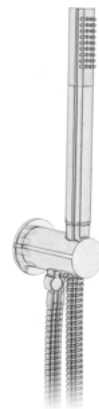

When designing your shower setup, it is important to think about all the shower users and the different ways they use the shower. If the shower is above a bath, the shower valve can also be used to control the bath overflow filler.

Wall or ceiling mounted options for shower heads.

BAR MIXER SYSTEM

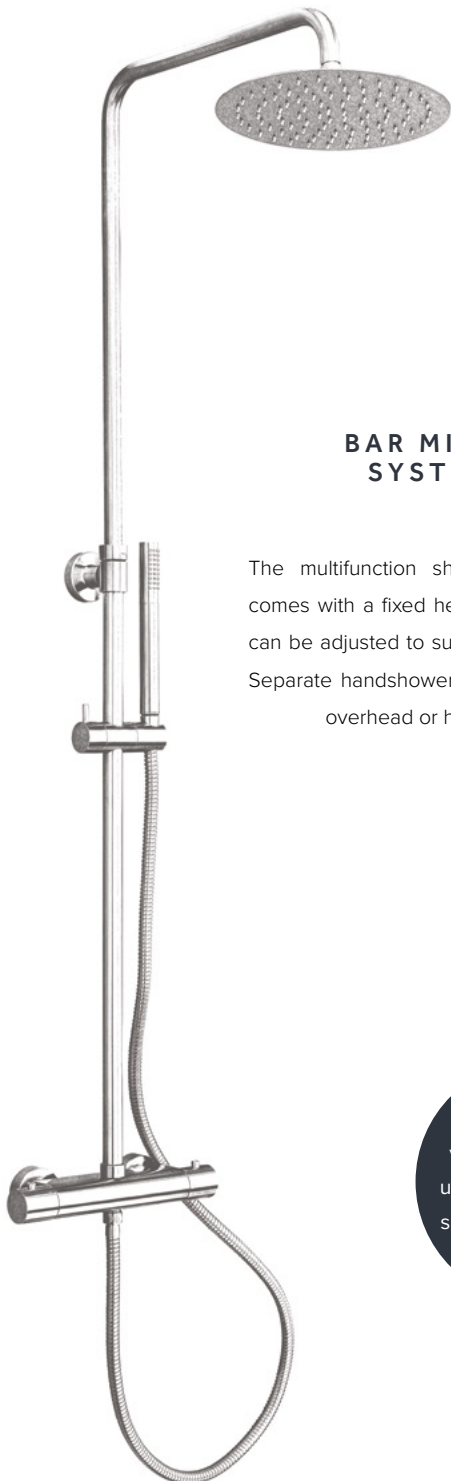

The multifunction shower bar mixer comes with a fixed head but its height can be adjusted to suit your bathroom. Separate handshower offers choice of overhead or handheld.

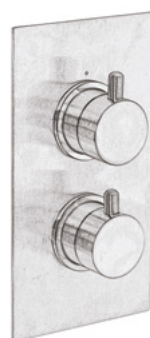

PENCIL HANDSHOWER

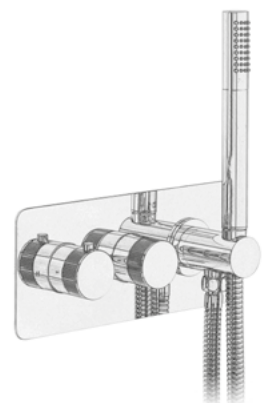

RISER RAIL & 3 FUNCTION SHOWERHEAD

Our shower valves can control up to three separate showering elements from one valve.

1, 2 OR 3 OUTLET SHOWER VALVES

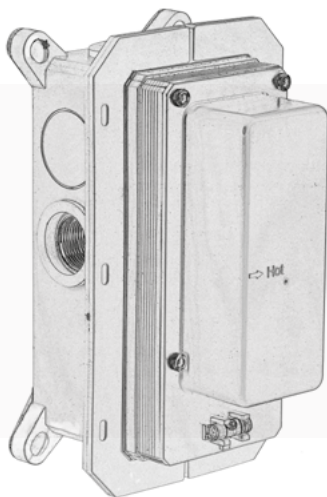

2 OUTLET WITH HANDSHOWER

C-BOX

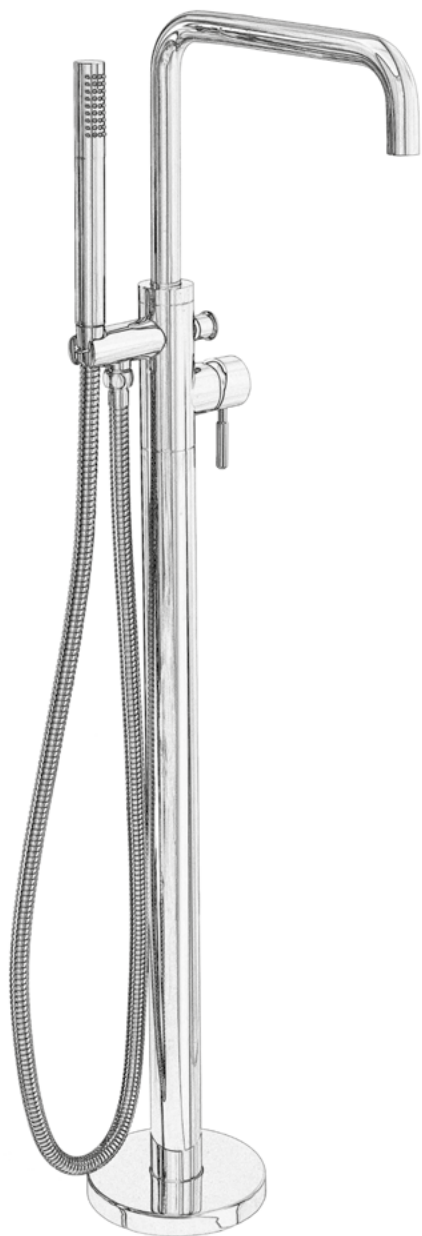

FOR SHOWER VALVES

The C-box is designed to allow easy installation of a shower valve within a wall.

The box can be secured either to the back of the recess or to the front plasterboard at depths from 77mm – 92mm. The built in spirit level on the dust cover ensures the valve is installed level.

BATH FILLERS

FREESTANDING MIXER

Typically used with freestanding baths, the freestanding bath shower mixer gives a luxury feel with a swivel spout and a separate shower handset.

3 TAP HOLE (3TH)

New to the range, our deck and wall mounted bath mixers complete with 190mm spout allow you to control the hot and cold water for your bath independently to get the perfect mix.

5 TAP HOLE (5TH)

The 5 hole bath filler allows you to control your bath spout and the pull out handshower to enable you fill your bath and use the handshower from the same controls.

DECK OR WALL MOUNTED VALVES

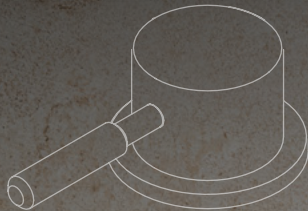

You can control your overflow filler or separate bath spout using these valves.

BATH OVERFLOW FILLER

The bath overflow filler fills the bath from the overflow – ensuring the most minimal of designs and no brassware mounted to the sides of the bath.

DOMO

Striking in its simplicity, the Domo range has a minimalistic, streamlined look which allows the products to fit perfectly into any bathroom space, whether traditional or contemporary.

Combining form and function, this versatile range has a minimalist, industrial aesthetic. The Domo range is available in all four of our Coalbrook finishes.

ZURICH

An ode to Swiss precision and high quality design, the Zurich collection was created with the same exceptional attention to detail. Featuring well-crafted levers, with a square handle fitted into a round hole, every twist and turn has been precisely mapped and thought through with our Zurich range. The Zurich range is available in all four of our Coalbrook finishes.

Upgrade the Zurich range with **COALESCENCE**

The Coalescence range is based on the Zurich basin and bath mixer levers. This unique customisation enables you to select the preferred combination of mixer and lever finish, including a ceramic lever option with twenty-four mixer and lever combinations. Made in England from fine china, the choice is yours.

STEP-BY-STEP GUIDE

Follow the steps below to create the perfect combination of body and lever finishes for the chosen Zurich product.

Choose your body from a range of four finishes along with a choice of six lever finishes including both brassware and ceramic options.
